

# **SHOULD YOU BE AFRAID OF EARTHQUAKES?**

**Iva Dasović**

Faculty of Science, Zagreb, Croatia

Did you know that about 12000 earthquakes per year are registered in Croatia and neighbouring area? Did you know that Croatia experienced even violent earthquakes in the last 150 years?

What are earthquakes and where do they occur? What kind of seismic activity is experienced in Croatia and Europe? How can we protect ourselves against them? Answers to these question and some extras will be covered within this lecture.
